Field Service Outcomes

Officers responded to 7,989 calls in 2024. There are more outcomes than calls because more than one outcome was recorded for some calls. For example, if an officer impounded a stray dog and left a written warning for the owner, both outcomes were recorded for the call. The most common outcomes are listed below (except for citations, which are described in the following section). Warnings include both verbal and written. Other outcomes not specifically listed include: made contact, no service needed, unable to catch animal, owner or complainant not home, wild animal relocated, trap set/checked/picked up, and full compliance.
